Detailed Action

Amendment

1. This office action is in response to applicant's amendment dated 11-12-04 and this action is final.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,193,299 to Correll et al. Correll et al. discloses a lure shaped to represent a small fish comprising, a tail fin part – at 12,14, at least one of a dorsal fin – see figures 1-2, and a pectoral fin – at 16 and a body portion – at 20, wherein the tail fin part and the dorsal and pectoral fin parts consist of a soft material – see for example column 5 lines 54-60 and column 6 lines 30-52, and the body portion consists of a hard material – see for example column 4 lines 63-68 and column 5 lines 1-6.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,105,573 to Mays or U.S. Patent No. 5,694,714 to Basso et al. Mays and Basso et al. disclose a

Art Unit: 3643

lure shaped to represent a bug comprising legs – at 66 of Mays and – at 20,22 of Basso et al. consisting of a soft material – see for example column 4 lines 26-35 of Mays and column 2 lines 47-59 of Basso et al., and a body consisting of a hard material – see for example column 2 lines 48-61 of Mays and column 2 lines 47-59 of Basso et al.

Response to Arguments

3. Regarding claim 1, the Correll et al. reference US 5193299 does disclose a portion of the body – at 20, is made of a hard material – see for example column 4 lines 63-68 and column 5 lines 1-6.

Applicant's amendment dated 11-12-04 obviates the 35 U.S.C. 112 2nd paragraph rejections set forth in the previous office action dated 7-13-04.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 3643

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
